- › Local adaptation, participation and communication

May 9, 2023

9,30-16,00

Sala Cavalcoli (Camera di Commercio di Ravenna)

Viale Farini 14, Ravenna

Participation in the event is free of charge

Registration link info: <https://www.italy-croatia.eu/web/adriaclim/news>

Participants and short description

AdriaClim Final Conference “Science and governance: a sea of opportunities for coastal adaptation” will take place in Ravenna, Sala Cavalcoli (Camera di commercio di Ravenna) in viale Farini 14, on May 9 2023.

The conference aims at sharing the project outcomes with all interested parties, in particular with policy makers. Furthermore, it intends to promote discussions on how to integrate science and politics by involving participants with different skill sets and professional backgrounds.

The event will be attended by leading international experts from universities, research and training centres in the field of climate change and coastal adaptation, professionals and technicians, journalists, policy actors and decision makers, NGOs and civil society delegates.

The conference will be a “Talk” including 4 thematic sessions with experts, journalists, researchers, scientific communicators and politicians, moderated by Marco Motta, “Radio3 Scienza” journalist.

The speeches will be in Italian and English, with simultaneous translation service.

The event will be in person and will also be streamed on AdriaClim Official [Facebook](#) Page.
