

CuriosoilNet

the participatory map on good soil practices

[Curiosoil](#) is a project funded by the European Union. The objective of the CuriosoilNet participatory map is to collect and identify, at the national level, organizations engaged in soil education and the best practices they implement.

We believe that collecting and mapping these educational, training, and outreach experiences in a single location can provide a useful sharing and cross-fertilization tool for raising awareness of the importance of soil and the culture of sustainability. To facilitate the compilation, we have provided a brief guide below.

We thank you very much for your attention and time!

Curiosoil Italian Unit

GUIDE TO THE COMPILATION

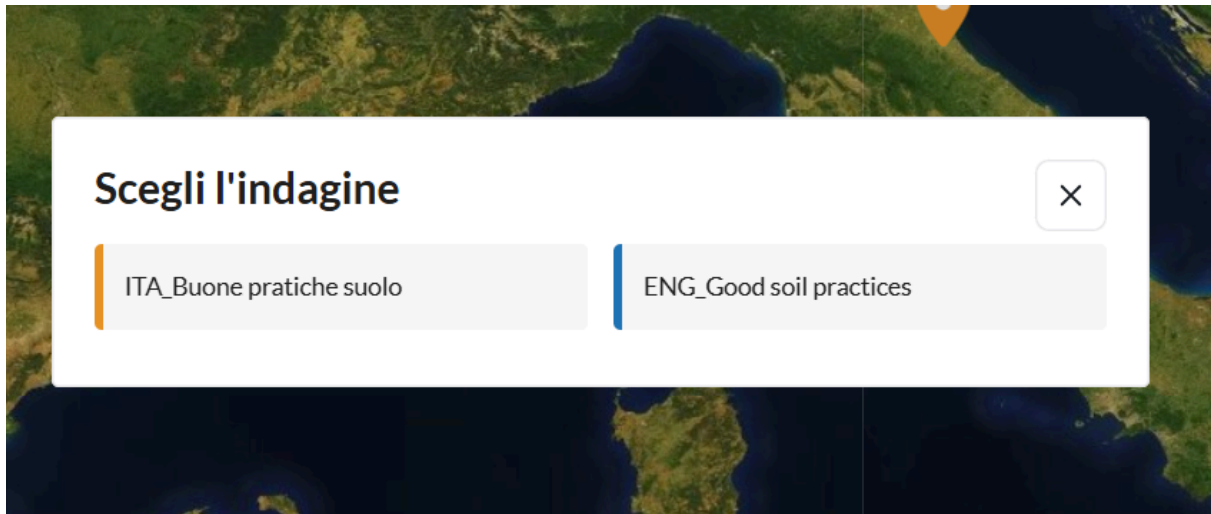

▶ from desktop

The CuriosoilNet interactive map opens at <https://curiosoilnet.usahidi.io/map>
Registration is not required to enter information.

- 1) Click on the yellow '**Add new post**' button to insert the good practice

- ② It will open a window that allows you to select the survey in English or in your language: click on '**Good soil practices**'

- ③ It will now open the form where you can enter your answers.

ENG_Good soil practices

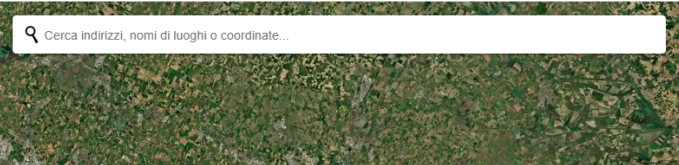

What is the name of the initiative / project / experience you would like to present? *

What kind of activities do you do with soil? *

Briefly describe the activities (one or more) or actions you carry out that involve soil.

Location *

A geographic location chosen via a map

Remember to enter the **geographic location**, by clicking directly on the map or using the search bar

- ④ Once completed, press the yellow **Submit / Send** button to post your answers.

Ideas or suggestions

What else do you think would be important to share in a participatory map?

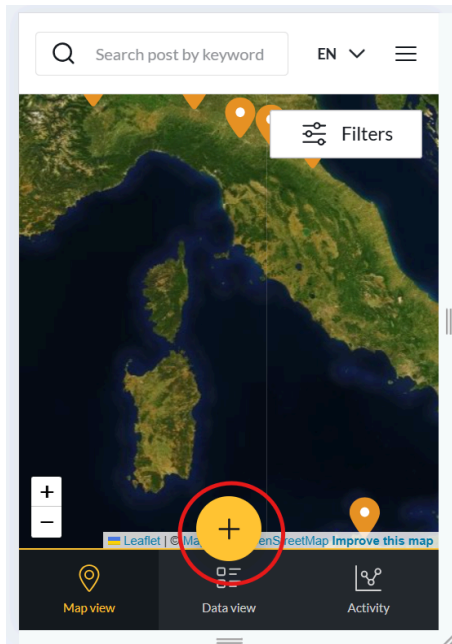

THANK YOU 😊

▶ from mobile / app

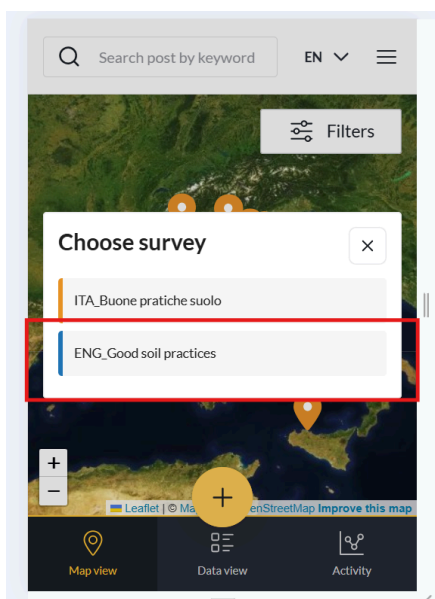

> The CuriosoilNet interactive map opens at <https://curiosoilnet.usahidi.io/map>.
Registration is not required to enter information.

> From the app, search for '**CuriosoilNet**' among the deployments and the map will open.

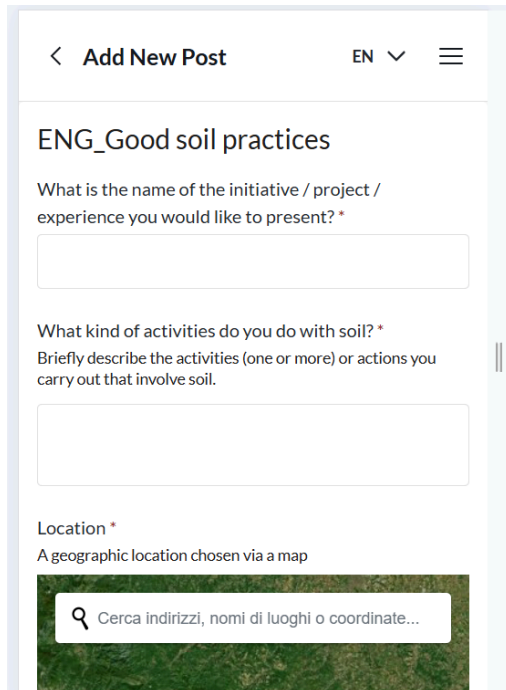

1 Click on the yellow + button to insert the good practice

2 It opens a window that allows you to select the survey: click on 'Good soil practices'

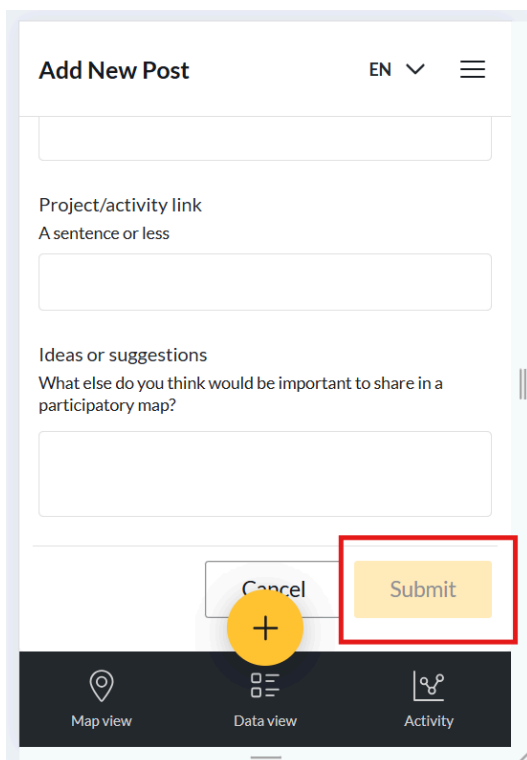

3 It will now open the form where you can enter your answers.

We recommend that you activate GPS so that localization occurs automatically and more precisely.

4 Once you have completed, press the yellow 'Submit' button to publish your answers.
