Historia general de las cosas de nueva España (General history of the things of New Spain) is an encyclopedic work about the people and culture of central Mexico compiled by Fray Bernardino de Sahagún (1499-

How hope can keep you healthier and happier

 The Conversation

Hope can erode when we perceive threats to our way of life, and these days, plenty are out there. As we age, we may struggle with a tragic loss or chronic disease. As we watch the news, we see our political system

Huge knowledge gap over health of soil

... BBC News

A vital knowledge gap about England's environment has been uncovered by soil campaigners. They have discovered that just 0.41% of the cash invested in environmental monitoring goes on examining the soil. That's

This Mysterious Ancient Structure Was Made of Mammoth Bones

 Nytimes

The ring of skulls, skeletons, tusks and other bones was too large for a roof, scientists say, so what was it for? Ice Age hunter-gatherers, foraging the bone-chilling, unforgiving steppes of what today is Russia,

The Unintended Consequences of Poor Soil Health

 Soil Health Academy

The Year 2019 presented numerous challenges to farmers and grazers, and consumers. Among them were significant flooding, dust storms, cyanobacteria (algal) blooms, prevent planting, glyphosate residue issues,

The miracle new sustainable product that's revolutionising architecture - stone!

 the Guardian

A long stone plank stands on Store Street in central London, raised on triangular wooden props, giving it the look of a medieval battering ram, ready to lay siege to Tottenham Court Road. This great masonry beam
